

PLANNING FOR ASSIGNMENT 2 - RESPONSIVE DESIGN & ACCESSIBILITY

Ayla - Layout & Hosting

Focus: Structure, grid/flex layout, responsive breakpoints, and deployment

- Set up new public repo and copy assignment 1 stuff over & project folder structure
- Build HTML layout structure and grid/flex containers
- Media queries and layout logic (1-column, 2x2, fluid)
- Push working responsive layout
- Deploy site to netlify and update netlify.txt
- Style careers and courses pages
- (ended up not doing responsive css for the schedules page)
- Help finalize and refine layout adjustments after styling is done

Louise - Styling & Accessibility

Focus: Visual design, accessibility, and refinement

- Style index, contact, and schedules page
- Test with WAVE and make improvements
- Check accessibility on WebAim
- Fix layout, spacing, and contrast issues on different breakpoints (make sure text looks good on different backgrounds)
